

IM-410

Mail Opener

Product Overview

- Perfect tabletop mail opener for mail centers that date stamp and open between 200 to 2,000 envelopes per day
- Easy-to-view 5.5" operator screen provides access to job functions and settings
- Self-adjusting feeder handles mixed-size mail opening at speeds up to 400 envelopes per minute
- Proven milling cutting technology protects envelope contents from being sliced or damaged
- Processed envelopes have a soft, feathered-edge opening, eliminating paper cuts
- Cut depth adjustment knob lets you select from three cut-depth settings, plus a no-cut setting for piece counting
- Equipped with a two-speed motor, ideal for ink jet printing receipt information on envelopes
- Select from a variety of print jobs and print date and time audit trails or unique sequence number for traceable mail
- Opens up to 3,500 envelopes before the chip tray must be emptied
- Adjustable output tray easily accommodates flats and large envelopes

Additional Features:

Milling removes chips as small as 0.01" from the envelope, producing a soft, feathered edge

Edge-to-edge envelope opening for ease of content extraction

Easy-to-view counter display shows the number of envelopes processed

Maximum thickness: Up to .188" (4.8 mm)

Handles overnight envelopes
