Print and Mail Equipment Solutions

LMQ BY Infinity Solutions

The Infinity Solutions LMQ Pressure Seal System is an integrated folder/sealer with a processing throughput of up to 3,000 forms per hour. The LMQ's innovative design offers an affordable desktop solution to automate short run pressure seal applications.

By leveraging Infinity Solutions' pressure seal technology, pressure seal forms are sealed as they are folded reducing the costly task of manually folding and stuffing of envelopes. The Infinity Solutions LMQ is an out of the box solution providing for a quick setup and quiet operation. It offers user friendly controls with a 6 digit resettable counter, jog forward and reverse.

This remarkable unit offers five standard fold patterns (Z, EZ, C, EC, and V), custom folds, and forms up to 14" in length.

Performance under pressure - often copied never duplicated.

ProDoc System is proud to present the Infinity Solutions Pressure seal folder/sealer product line. All of our folder/sealers are manufactured in the USA!

Pressure Seal Folder Sealers

The Infinity Solutions LMQ pressure seal unit is an integrated folder/sealer with a processing throughput of up to 3,000 documents per hour with a recommended duty cycle of up to 25,000 documents per month. It is capable of folding perforated pressure seal mailers from 20lb to 80lb stock. Allowing for all the standard fold patterns in addition to custom folds for 11" & 14" forms.
